Happy New Year!

Dish Room Renovation Project

On Monday, January 8, 2018, we will begin the renovation of the dish room. The projected length of time for the entire project is three weeks. New walls, plumbing, electrical work, and non-skid epoxy floor covering will be installed prior to the long-awaited dish machine. New Year's Resolution – less mineral deposits on the flatware!

During this time frame, we will make every effort to provide quality meals following our current cycle and Always Available menus. Staff will be challenged to prepare food without the proximity of a dish machine. It will take a team effort from the dining services staff to provide food for the 530 or so meals that we serve each day.

The residents in our healthcare facility, Oak Grove, and personal care dining rooms will continue to be served using china, glassware, and flatware. Each country kitchen is equipped with their own dish machine. The dish machine in the Cranberry Lake Grill will be used to clean the dishes from the main kitchen and personal care. To facilitate this process, we have made the decision to use disposable items in the main dining room for both lunch and dinner. We will also serve buffet style during these upcoming three weeks.

We hope that this project will go smoothly and will result in cleaner dishes for our residents, guests, and staff. Your support during this renovation is very much appreciated.

New Year – New Extensions

Gatehouse - 8155

Café (take out or home delivery) – 8236

Dining Room Reservations – 8234

If you are calling from the 600's or the apartment building, remember to use the 724-776 prior to the extensions mentioned above
