

“For Your Information”

(A periodic publication by Sherwood Oaks Executive Director, Annette McPeck)

April 26, 2022

Channel 900 & 901

Armstrong Cable will be testing our HD Radiant on their new stream system on Wednesday, April 27. This means that channels 900 and 901 will be out of service for a few hours beginning at 10:00 a.m. If they have a successful trial with the equipment, we will be the first customers to get the new service on the stream devices. More information will be available in a future FYI.

COVID-19 Booster Clinic

Sherwood Oaks independent living residents will be offered a second Moderna or Pfizer booster shot on Thursday, May 19 in the Auditorium & Card Room. Booster will be based on initial vaccination type. Plan to bring your vaccination card. We ask that you follow the schedule below based upon your address:

- Patio homes 101-137 9:00 a.m.
- Patio homes 138-188 9:30 a.m.
- Patio homes 189-233 10:00 a.m.
- Patio homes 237-275 10:30 a.m.
- Patio homes 276-328 11:00 a.m.
- Patio homes 329-360 11:30 a.m.
- Patio homes 601-619 1:00 p.m.
- Apartments 711-739 1:30 p.m.

If you have questions, or have already received your booster shot, please contact the reception desk.

Health Center (Skilled Nursing, Personal Care & Oak Grove) residents will receive their boosters on Wednesday, May 18 directly on their units. There is no need for these residents to go to the Auditorium. Booster shots will be available on May 18 to employees who preregister at vaccine.upmc.com.

Annual Hydrant Flushing

Cranberry Twp Officials will be on the campus the first week of May to flush the fire hydrants. It's a controlled procedure that is vital to the general maintenance of the City's water distribution system. Hydrant flushing helps ensure water quality and helps avoid random bouts of rusty water if there is a high demand for water, caused by a major firefighting effort or water main break. During the flushing of a hydrant, you may notice reduced water pressure and flow. Sometimes hydrant flushing can make the water temporarily appear rust-colored because the iron and other mineral deposits in the water mains get stirred up. There is no health hazard associated with discolored water. Water is safe to use and consume during hydrant flushing, however it may stain laundry. If you have questions, please contact Gary Whoric at ext. 8599.

Birthday Night

Join us on April 27 in the Main Dining Room and Café as we head to the “Big Apple” to celebrate April birthdays. Our New York inspired menu includes chicken matza ball soup, Manhattan clam chowder, pastrami on rye, lobster Newberg, hot dog, buffalo wings, chili cheese fries, fried onions & apples, oven roasted asparagus, funnel cake and New York cheesecake.
